

RIGID INFLATABLE BOATS-11 m-36ft

With advances in technology, inflatable boats have become a good alternative for many boating needs. Speed inflatable boats like this one made by Allmand Boats are made to 36 feet long and using outboard motors 400 engine horse power and is designed for speed. Other designs the same length are wider inside and made for rescue or passenger use. Based on its performance, it is used for dive boats, life rafts, military and rescue craft, as a water taxi passenger boat and as a whale watching or tour boat. Rigid inflatable boats we offer today have higher capacity and more greater performance potential than ever before. Hypalon and PVC models are used for dive boats, life rafts, military and rescue craft. Rigid inflatable boats have a high capacity combined with light weight and therefore provide a more responsive performance as needed in bay waters and offshore conditions. Because of their speed, portability and weight, inflatable boats are used for racing commercial or recreational fishing tenders for larger boats and ships in port and at sea recreational water skiing dive boats for scuba diving.

Inflatable boats are made 6 to 21 feet long and using outboard motors 4 to 60 KW. Based on its performance, it is used for dive boats, life rafts, military and rescue craft. Rigid inflatable boats are having high capacity and high performance.

Price: \$55,990.00 or less, Shipping rates determined at time of order confirmation: Price Ready For Engine(s) (Price includes global shipping and delivery to most major cities)

Boat Specifications

- Length 11 m
- Beam 3.3 m
- Int. Length 8.8 m
- Int. Beam 2.1 m
- Tube Diameter 600 mm
- Air Chambers 9
- Capacity max.(persons) 30
- Unloaded displacement 1600 kg
- Payload 2400 kg

Standard Equipment

Price Includes Global Shipping
 Commercial Duty Rib960M/31' and Rib1100M US\$55,990.00boat:
 Rib960M:US\$45,000.00(Hypalon tube.special prices,two driver seats and 5pcs bench seats for 15 persons or jockey seats for 14 persons)
